### ACKNOWLEDGEMENT

The Board places on record its appreciation of the support of our valued customers. I would like to highlight the hard work put in by the employees of the company.

We are confident they will continue to show the same dedication in the days ahead.

Lahore

Dated: September 06, 2017

  
(MRS. MEHREEN UMAR DAHA)  
Chairman

**MND INVESTMENT (PVT) LIMITED**  
**FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED JUNE 30, 2017**

AUDITORS' REPORT TO THE MEMBERS

We have audited the annexed balance sheet of **MND Investment (Pvt) Limited** as at June 30, 2017 and the related profit and loss account, statement of comprehensive income, cash flow statement and statement of changes in equity, together with the notes forming part thereof, for the year then ended and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit.

It is the responsibility of the company's management to establish and maintain a system of internal control, and prepare and present the above said statements in conformity with the approved accounting standards and the requirements of the repealed Companies Ordinance, 1984. Our responsibility is to express an opinion on these statements based on our audit.

We conducted our audit in accordance with the auditing standards as applicable in Pakistan. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the above said statements are free of any material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the above said statements. An audit also includes assessing the accounting policies and significant estimates made by management, as well as, evaluating the overall presentation of the above said statements. We believe that our audit provides a reasonable basis for our opinion and, after due verification, we report that:

- (a) in our opinion, proper books of account have been kept by the company as required by the repealed Companies Ordinance, 1984;
- (b) in our opinion:
  - (i) the balance sheet and profit and loss account, together with the notes thereon, have been drawn up in conformity with the repealed Companies Ordinance, 1984, and are in agreement with the books of account and are further in accordance with accounting policy consistently applied;
  - (ii) the expenditure incurred during the year was for the purpose of the company's business; and
  - (iii) the business conducted, investments made and the expenditure incurred during the year were in accordance with the objects of the company;
- (c) in our opinion and to the best of our information and according to the explanations given to us, the balance sheet, profit and loss account, statement of comprehensive income, cash flow statement and statement of changes in equity, together with the notes forming part thereof, conform with approved accounting standards as applicable in Pakistan, and, give the information required by the repealed Companies Ordinance, 1984, in the manner so required and respectively give a true and fair view of the state of the company's affairs as at June 30, 2017 and of the loss, comprehensive loss, its cash flows and changes in equity for the year then ended; and
- (d) in our opinion, no Zakat was deductible at source under the Zakat and Ushr Ordinance, 1980.

CHIEF EXECUTIVE

  
DIRECTOR

**MND INVESTMENT (PVT) LIMITED**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED JUNE 30, 2017**

**1 COMPANY AND ITS OPERATION**

- 1.1** The company was incorporated as Private Limited Company on June 22, 2007 under the Companies Ordinance, 1984 (repealed). The company is engaged in the business of share brokerage and investment in securities. The registered office of the company is situated at Room No. 509, 5th Floor, Lahore Stock Exchange Building, 19-Khyayaban-e-Aiwan-e-Iqbal, Lahore.

The company is a holder of Trading Right Entitlement Certificate (TREC) of Pakistan Stock Exchange Limited.

**2 BASIS OF PREPARATION**

**2.1 STATEMENT OF COMPLIANCE**

These financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board as are notified under the Companies Ordinance, 1984, provisions of and directives issued under the Companies Ordinance, 1984.

The Companies Ordinance, 1984 has been repealed after the enactment of the Companies Act, 2017. However, as allowed by the SECP vide its press release dated 20 July 2017, these financial statements have been prepared in accordance with the provisions of the repealed Companies Ordinance, 1984.

**2.2 ACCOUNTING CONVENTION**

These financial statements have been prepared under the historical cost convention except as stated hereafter in the relevant accounting policies. Further accrual basis of accounting is followed in the preparation of these financial statements except for cash flow information.

**2.3 FUNCTIONAL AND PRESENTATION CURRENCY**

The financial statements are presented in Pakistani Rupee, which is the company's functional and presentation currency.

**2.4 JUDGEMENTS, ESTIMATES AND ASSUMPTIONS**

The preparation of financial statements in conformity with approved accounting standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the company's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of revision and future periods if the revision affects both current and future periods.

N

### **3 AMENDMENTS / INTERPRETATION TO EXISTING STANDARDS AND FORTHCOMING REQUIREMENTS**

#### **3.1 Amendments to published standards that are effective in current year but not relevant to the Company.**

There are amendments to published standards that are mandatory for accounting periods beginning on or after July 01, 2016 but are considered not to be relevant or do not have any significant impact on the Company's financial statements and are therefore not detailed in these financial statements.

#### **3.2 Standards and amendments to published approved accounting standards that are not yet effective but relevant to the Company**

The following standards and amendments to existing standards have been published and are mandatory for the Company's accounting periods beginning on or after July 01, 2017 or later periods:

- Amendments to IAS 12 'Income Taxes' are effective for annual periods beginning on or after 1 January 2017. The amendments clarify that the existence of a deductible temporary difference depends solely on a comparison of the carrying amount of an asset and its tax base at the end of the reporting period, and is not affected by possible future changes in the carrying amount or expected manner of recovery of the asset. The amendments further clarify that when calculating deferred tax asset in respect of insufficient taxable temporary differences, the future taxable profit excludes tax deductions resulting from the reversal of those deductible temporary differences. The amendments are not likely to have an impact on Company's financial statements.
- Amendments to IAS 7 'Statement of Cash Flows' are part of IASB's broader disclosure initiative and are effective for annual periods beginning on or after 1 January 2017. The amendments require disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flow and non-cash changes.
- Amendments to IFRS 2 - 'Share-based Payment' clarify the accounting for certain types of arrangements and are effective for annual periods beginning on or after 1 January 2018. The amendments cover three accounting areas (a) measurement of cash-settled share-based payments; (b) classification of share-based payments settled net of tax withholdings; and (c) accounting for a modification of a share-based payment from cash-settled to equity-settled. The new requirements could affect the classification and/or measurement of these arrangements and potentially the timing and amount of expense recognized for new and outstanding awards. The amendments are not likely to have an impact on Company's financial statements.
- Transfers of Investment Property (Amendments to IAS 40 'Investment Property' - effective for annual periods beginning on or after 1 January 2018) clarifies that an entity shall transfer a property to, or from, investment property when, and only when there is a change in use. A change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. In isolation, a change in management's intentions for the use of a property does not provide evidence of a change in use. The amendments are not likely to have an impact on Company's financial statements.

- IFRIC 22 'Foreign Currency Transactions and Advance Consideration' (effective for annual periods beginning on or after 1 January 2018) clarifies which date should be used for translation when a foreign currency transaction involves payment or receipt in advance of the item it relates to. The related item is translated using the exchange rate on the date the advance foreign currency is received or paid and the prepayment or deferred income is recognized. The date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income (or part of it) would remain the date on which receipt of payment from advance consideration was recognized. If there are multiple payments or receipts in advance, the entity shall determine a date of the transaction for each payment or receipt of advance consideration.
- IFRIC 23 'Uncertainty over Income Tax Treatments' (effective for annual periods beginning on or after 1 January 2019) clarifies the accounting for income tax when there is uncertainty over income tax treatments under IAS 12. The interpretation requires the uncertainty over tax treatment be reflected in the measurement of current and deferred tax.

Annual improvements to IFRS standards 2014-2016 cycle. The new cycle of improvements addresses improvements to following approved accounting standards:

- Amendments to IFRS 12 'Disclosure of Interests in Other Entities' (effective for annual periods beginning on or after 1 January 2017) clarify that the requirements of IFRS 12 apply to an entity's interests that are classified as held for sale or discontinued operations in accordance with IFRS 5 - 'Non-current Assets Held for Sale and Discontinued Operations'. The amendments are not likely to have an impact on Company's financial statements.
- Amendments to IAS 28 'Investments in Associates and Joint Ventures' (effective for annual periods beginning on or after 1 January 2018) clarifies that a venture capital organization and other similar entities may elect to measure investments in associates and joint ventures at fair value through profit or loss, for each associate or joint venture separately at the time of initial recognition of investment. Furthermore, similar election is available to non-investment entity that has an interest in an associate or joint venture that is an investment entity, when applying the equity method, to retain the fair value measurement applied by that investment entity associate or joint venture to the investment entity associate's or joint venture's interests in subsidiaries. This election is made separately for each investment entity associate or joint venture. The amendments are not likely to have an impact on Company's financial statements.

In addition, the Companies Act, 2017 was enacted on 30 May 2017 and SECP vide its circular 17 of 2017 has clarified that the companies whose financial year closes on or before 30 June 2017 shall prepare their financial statements in accordance with the provisions of the repealed Companies Ordinance, 1984.

The Companies Act, 2017 applicable for financial year beginning on 1 July 2017 requires certain additional disclosures and Section 235 of the repealed Companies Ordinance, 1984 relating to treatment of surplus arising out of revaluation of assets has not been carried

N

forward in the Companies Act, 2017. This would require change in accounting policy relating to surplus on revaluation of fixed assets to bring it in line with the requirements of IAS 16 – Property, plant and equipment. Accordingly, surplus on revaluation of fixed assets will be part of equity.

#### **4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

##### **4.1 PROPERTY AND EQUIPMENT**

Property and equipment are stated at cost less accumulated depreciation.

Depreciation is charged on reducing balance method at the rates mentioned in note no. 5. Depreciation on additions is charged for the month in which an asset is acquired while no depreciation is charged for the month in which an asset is disposed off. Normal repair and maintenance is charged to revenue as and when incurred, while major renewals and replacements are capitalized.

Gain or loss on disposal of property and equipment, if any is taken to profit and loss account.

##### **4.2 INTANGIBLE ASSETS**

Intangible assets with finite useful life are stated at cost less amortization and impairment, if any. The carrying amount is reviewed at each balance sheet date to assess whether it is in excess of its recoverable amount, and where carrying value exceeds estimated recoverable amount, it is written down to estimated recoverable amount.

###### **4.2.1 Membership card and offices**

This is stated at cost less impairment, if any. The carrying amount is reviewed at each balance sheet date to assess whether it is in excess of its recoverable amount, and where the carrying value exceeds estimated recoverable amount, it is written down to its estimated recoverable amount.

##### **4.3 FINANCIAL ASSETS**

Financial assets are classified in the following categories: Held-to-maturity, at fair value through profit or loss, available-for-sale and loans and receivables. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

###### **4.3.1 Held to Maturity**

The investments with fixed maturity, if any, that the company has to positive intent and ability to hold to maturity. Held to maturity investments are initially measured at fair value plus transaction costs and are subsequently stated at amortized cost using the effective interest rate method less impairment, if any. These are classified as current and non-current assets in accordance with criteria set out by IFRSs.

###### **4.3.2 At fair value through profit and loss**

Investments classified as held for trading are included in the category of financial assets at fair value through profit and loss. These are listed securities that are acquired principally for the purpose of generating a profit from short term fluctuations in price or dealer's margin. 

All investments are initially recognized at cost, being the fair value of the consideration given excluding acquisition charges with the investment. After initial recognition, investments are measured at their fair values. Unrealized gains and losses on investments are recognized in profit and loss account of the period.

Fair values of these securities representing listed equity and debt securities are determined by reference to stock exchange quoted market prices at the close of the business on balance sheet date.

#### **4.3.3 Available-for-sale**

Investments which are intended to be held for an undefined period of time but may be sold in response to the need for liquidity or changes in interest rates are classified as available-for-sale.

Subsequent to initial recognition at cost, these are premeasured at fair value. The Company uses latest stock exchange quotations to determine the fair value of its quoted investments whereas fair value of investments in un-quoted companies is determined by applying the appropriate valuation techniques as permissible under IAS 39 (Financial Instruments: Recognition and Measurement). Gains or losses on available-for-sale investments are recognized directly in other comprehensive income until the investments are sold or disposed-off, or until the investments are determined to be impaired, at that time cumulative gain or loss previously recognized in other comprehensive income, is re-classified from equity to profit and loss as re-classification adjustment.

#### **4.3.4 Loans and Receivables**

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than twelve months after the balance sheet date, which are classified as non-current assets. Loans and receivables comprise trade debts, loans, advances, deposits, other receivable and cash and bank balances in the balance sheet.

### **4.4 FINANCIAL LIABILITIES**

Financial liabilities are initially recognized at fair value plus directly attributable cost, if any, and subsequently carried at amortized cost using effective interest rate method.

### **4.5 OFFSETTING OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES**

A financial asset and a financial liability is only offset and the net amount is reported in the balance sheet date, where there is a legal enforceable right to set off the recognized amount and the company intends either to settle on a net basis or to realize the asset and settle the liability simultaneously. Income and expenses arising from such assets and liabilities are also accordingly offset.

### **4.6 TRADE DEBTS AND OTHER RECEIVABLES**

Trade debts and other receivables are recognized initially at cost which is the fair value of consideration to be received less provision for doubtful debts, if any. A provision for

doubtful debt is established when there is an objective evidence that the Company will not be able to collect all amounts due according to the original terms of receivables. Trade debts and other receivables considered irrecoverable are written off.

#### **4.7 CASH AND CASH EQUIVALENTS**

Cash and cash equivalents are carried in the balance sheet at fair value. For the purpose of cash flow statement, cash and cash equivalents consist of cash in hand, balances at banks in current and deposit accounts and short term running finances with bank.

#### **4.8 SHARE CAPITAL**

Ordinary shares are classified as equity and recognized at their face value.

#### **4.9 BORROWINGS**

Borrowings that are acquired for long term financing are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in the profit and loss account over the period of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

#### **4.10 TAXATION**

##### **Current**

Provision for current taxation is based on taxable income at the applicable rates of taxation after taking into account tax credits, brought forward losses, accelerated depreciation allowances and any minimum limits imposed by the taxation laws.

##### **Deferred**

The company accounts for deferred taxation using the liability method on all timing differences which are considered reversible in the foreseeable future.

Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax assets to be utilized.

Deferred tax is calculated at the rates expected to apply to the period when the related temporary differences reverse, based on tax rates that have been enacted or substantially enacted by the balance sheet date.

#### **4.11 TRADE AND OTHER PAYABLES**

Trade and other payables are carried at cost, which is the fair value of the consideration to be paid, in the future for goods and services received.

#### **4.12 PROVISIONS**

Provisions are recognized when the company has a legal or constructive obligation as a result of past events and it is probable that an out flow of economic benefits will be required

*W*

to settle the obligation and a reliable estimate of the amount can be made. However provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

Contingent assets are not recognized and are also not disclosed unless an inflow of economic benefits is probable and contingent liabilities are not recognized and are disclosed unless the probability of an outflow of resources embodying economic benefits is remote.

#### **4.13 FOREIGN CURRENCY TRANSACTIONS AND TRANSLATION**

Monetary assets and liabilities in foreign currencies are translated into Pakistan Rupees at the rates of exchange prevailing at the balance sheet date. Transactions in foreign currencies are translated into functional currency using the rates of exchange prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the profit and loss account.

#### **4.14 IMPAIRMENT**

The Company assesses at each reporting date whether there is any indication that operating fixed assets may be impaired. If such an indication exists, the carrying amounts of the related assets are reviewed to assess whether they are recorded in excess of their recoverable amount. Where carrying values exceed the respective recoverable amounts, assets are written down to their recoverable amounts and the resulting impairment loss is charged to the profit and loss account. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

#### **4.15 REVENUE RECOGNITION**

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the amount of revenue can be measured reliably. Revenue is measured at the fair value of the consideration received or receivable, net of any direct expenses. Revenue is recognized on the following basis:

- Brokerage, consultancy and advisory fee, commission etc. are recognized as and when such services are provided.
- Profit on saving accounts, profit on exposure deposits and markup on marginal financing is recognized at effective yield on time proportion basis.
- Gains / (losses) arising on sale of investments are included in the profit and loss account in the period in which they arise.
- Dividend income is recorded when the right to receive the dividend is established.
- Unrealized capital gains / (losses) arising from mark to market of investments classified as at financial assets at fair value through profit or loss are included in profit and loss account for the period in which they arise.
- Other revenues are recorded, as and when due, on accrual basis. v

#### **4.16 BASIC AND DILUTED EARNINGS PER SHARE**

The Company presents basic and diluted earnings per share (EPS) for its shareholders. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the company by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, if any.

#### **4.17 RELATED PARTY TRANSACTIONS**

Transactions and contracts with the related parties are carried out at an arm's length price determined in accordance with comparable uncontrolled price method. Transactions with related parties have been disclosed in the relevant notes to the financial statements.

#### **4.18 TRADE DATE ACCOUNTING**

All "regular way" purchases and sales of financial assets are recognized on the trade date, i.e. the date on which the Company commits to purchase or sell an asset. Regular way purchases or sales of financial assets are those, the contract for which requires delivery of assets within the time frame generally established by regulation or convention in the market. *W*

## 29 FINANCIAL RISK MANAGEMENT

29.1 The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk (interest/mark-up rate risk and price risk). The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance. Overall, risks arising from the company's financial assets and liabilities are limited. The Company consistently manages its exposure to financial risk without any material change from previous periods in the manner described in notes below.

The company's exposure to financial risks, the way these risks affect revenues, expenses, assets, liabilities and forecast transactions of the company and the manner in which each of these risks are managed is as follows: 

a) **Credit Risk**

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss, without taking into account the fair value of any collateral. Concentration of credit risk arises when a number of counter parties are engaged in similar business activities or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economics, political or other conditions. Concentrations of credit risk indicate the relative sensitivity of the Company's performance to developments affecting a particular industry.

**Exposure to Credit Risk**

Credit risk of the Company arises from deposits with banks and financial institutions, trade debts, short term loans, deposits, receivable / payable against sale of securities and other receivables. The carrying amount of financial assets represents the maximum credit exposure. To reduce the exposure to credit risk, the Company has developed its own risk management policies and guidelines whereby clients are provided trading limits according to their net worth and proper margins are collected and maintained from the clients. The management continuously monitors the credit exposure towards the clients and makes provision against those balances considered doubtful of recovery. The Company's management, as part of risk management policies and guidelines, reviews clients' financial position, considers past experience, obtain authorized approvals and arrange for necessary collaterals in the form of equity securities to reduce credit risks and other factors. Further, credit risk on liquid funds is limited because the counter parties are banks with reasonably high credit ratings.

The carrying amount of financial assets represent the maximum credit exposure at the reporting date, which are detailed as follows:

	Note	2017 Rupees	2016 Rupees
Long term investment		11,489,877	17,343,686
Long term deposits		600,000	600,000
Short term deposits		1,500,000	500,000
Trade debts	29.1.1	1,857,112	2,787,803
Bank balances	29.1.2	27,026,168	16,454,346
		<u>42,473,157</u>	<u>37,685,835</u>

29.1.1 The maximum exposure to credit risk for trade debts is due from local clients and the aging of trade debts at the reporting date was:

	2017 Rupees	2016 Rupees
Upto 1 month	1,004,724	148,093
1 to 6 months	153,328	2,071,518
More than 6 months	699,060	568,192
	<u>1,857,112</u>	<u>2,787,803</u>

## 29.1.2 Concentration of credit risk

Concentration of credit risk exists when changes in economic or industry factors similarly affect groups of counterparties whose aggregate exposure is significant in relation to the Company's total exposure. The Company's portfolio of financial instruments is broadly diversified and transactions are entered into with diverse credit-worthy counterparties thereby mitigating any significant concentrations of credit risk.

Geographically there is no concentration of credit risk.

The credit quality of Company's liquid funds can be assessed with reference to external credit ratings as follows:

	Note rating	2017 Rupees	2016 Rupees
Cash at banks	A1+	<u>27,030,168</u>	<u>16,454,346</u>

### b) Liquidity Risk

Liquidity risk is the risk that the company will not be able to meet its financial obligations as they fall due. The company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation. The following are the contractual maturities of financial liabilities, including expected interest payments and excluding the impact of netting agreements:

2017				
	Carrying Amount	Contractual Cash Flows	Maturity upto one year	Maturity after one year
	-----R u p e e s-----			
Trade and other payables	24,091,826	24,091,826	24,091,826	-
Short term borrowings	3,300,076	3,300,076	3,300,076	-
	<u>27,391,902</u>	<u>27,391,902</u>	<u>27,391,902</u>	<u>-</u>
2016				
	Carrying Amount	Contractual Cash Flows	Maturity upto one year	Maturity after one year
	-----R u p e e s-----			
Trade and other payables	12,248,526	12,248,526	12,248,526	-
Short term borrowings	3,497,077	3,497,077	3,497,077	-
	<u>15,745,603</u>	<u>15,745,603</u>	<u>15,745,603</u>	<u>-</u>

## **Liquidity Risk Management**

The company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation.

The company monitors cash flow requirements and produces cash flow projections for the short and long term. Typically, the company ensures that it has sufficient cash on demand to meet expected operational cash flows, including serving of financial obligations. This includes maintenance of balance sheet liquidity ratios, debtors and creditors concentration both in terms of overall funding mix and avoidance of undue reliance on large individual customer. Further, the company has the support of its sponsors in respect of any liquidity shortfalls.

### **c) Market Risk**

Market risk means that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices such as foreign exchange rates, interest rates and equity prices. The objective is to manage and control market risk exposures within acceptable parameters, while optimizing the return. Market risk comprises of three types of risk: foreign exchange or currency risk, interest / mark up rate risk and price risk. The market risks associated with the Company's business activities are discussed as under:

#### **i) Foreign Currency Risk**

Foreign currency risk arises mainly where receivables and payables exist due to transaction in foreign currency. Currently, the Company is not exposed to currency risk since there are no foreign currency transactions and balances at the reporting date.

#### **ii) Price Risk**

Price risk represents the risk that the fair value of a financial instrument will fluctuate because of changes in the market prices (other than those arising from interest/ mark up rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all or similar financial instruments traded in the market. Presently, daily stock market fluctuation is controlled by government authorities with cap and floor of 5%. The restriction of floor prices reduces the volatility of prices of equity securities and the chances of market crash at any moment. The Company manages price risk by monitoring the exposure in quoted equity securities and implementing the strict discipline in internal risk management and investment policies, which includes disposing of its own equity investment and collateral held before it led the company to incur significant mark to market and credit losses. The Company is exposed to equity price risk since it has investments in quoted equity securities and also the company holds collaterals in the form of equity securities against their debtor balances at the reporting date.

#### **Sensitivity Analysis**

The table below summarizes Company's equity price risk as of 30 June 2017 and 2016 and shows the effects of a hypothetical 10% increase and a 10% decrease in market

*N*

prices of investments through profit and loss as at the year end reporting dates. The selected hypothetical change does not reflect what could be considered to be the best or worst case scenarios. Indeed, results could be worse because of the nature of equity markets and the aforementioned concentrations existing in Company's equity investment portfolio.

	Fair Value Rupees	Hypothetical Price Change	Estimated Fair Value After Hypothetical 1 Change In Price	Estimated Fair Value After Hypothetical 1 Change In Price Rupees
June 30, 2017	2,437,880	2,437,880	10% increase 10% decrease	2,681,668 2,194,092
June 30, 2016	3,122,324	3,122,324	10% increase 10% decrease	3,434,556 2,810,092

### iii) Interest Rate Risk

Interest / mark-up rate risk is the risk that value of a financial instrument or future cash flows of a financial instrument will fluctuate due to changes in the market interest / mark-up rates. Sensitivity to interest / mark up rate risk arises from mismatches of financial assets and liabilities that mature or re-price in a given period. The Company manages these mismatches through risk management strategies where significant changes in gap position can be adjusted.

#### Sensitivity Analysis

Currently, the Company is not exposed to any interest rate risk as it does not hold any mark up/interest bearing financial instrument exposed to interest rate risk at the reporting date.

## 29.2 Fair value of financial instruments

Fair value is the amount for which an asset could be exchanged, or liability settled, between knowledgeable willing parties in an arm's length transaction. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Company is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

The estimated fair value of all financial assets and liabilities is considered not significantly different from book values as the items are either short - term in nature or periodically reprised.

International Financial Reporting Standard 13, 'Financial Instruments : Disclosure' requires the company to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1)
- inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (level 2); and
- inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

The level in the fair value hierarchy within which the fair value measurement is categorized in its entirety shall be determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety.

The table below analyses financial instruments measured at fair value at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorized:

	2017		
	Level 1	Level 2	Level 3
	-----Rupees-----		
<b>Financial assets</b>			
Investment at fair value through profit and loss	2,437,880	-	-
Investments available for sale	-	11,489,877	-
	<u>2,437,880</u>	<u>11,489,877</u>	<u>-</u>

	2016		
	Level 1	Level 2	Level 3
	-----Rupees-----		
<b>Financial assets</b>			
Investment at fair value through profit and loss	3,122,324	-	-
Investments available for sale	-	17,343,686	-
	<u>3,122,324</u>	<u>17,343,686</u>	<u>-</u>

### 29.3 Capital risk management

The Company's objective when managing capital is to safeguard the Company's ability to remain as a going concern and continue to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. The Company has a gearing ratio of 11% (2016: 9%) as of the balance sheet date.

## 30 OPERATING SEGMENT

30.1 These financial statements have been prepared on the basis of a single reportable segment which is consistent with the internal reporting used by the chief operating decision-maker. The chief operating decision-maker is responsible for allocating resources and assessing performance of the operating segments.

30.2 All non-current assets of the Company as at June 30, 2017 are located in Pakistan.

**31 CORRESPONDING FIGURES**

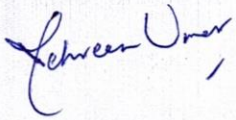

Corresponding figures have been rearranged wherever required for the purpose of comparison. However, there is no major rearrangement to disclose.

**32 GENERAL**

Figures have been rounded off to the nearest of rupee.

**33 DATE OF AUTHORISATION FOR ISSUE**

These financial statements were authorized for issue on 06 SEP 2017 by the Board of Directors of the Company.
